## DEFEAT OF PEACE TREATY AT HAND; ARTICLE TEN UP

Pact To Be Injected Into  
Campaign By End  
of Week.

SENATE IN SESSION

Showdown On Disputed  
Clause To Be Ended  
By Midnight.

Washington, March 15.—Defeat of the peace treaty and its injection into the campaign before the week end was the prediction freely expressed on all sides as the senate prepared for a final showdown today on article ten.

By unanimous agreement, all proposed reservations to the long disputed article, and all suggested substitutes and amendments, must be voted on before the end of today's session.

In order to get rid of article ten, the senate is to remain in continuous session—until midnight, if necessary. It must be disposed of before the end of the calendar day which starts at noon. Debate is to be restricted to 15 minutes for each senator on the reservations, and to five minutes for each senator on amendments.

President Wilson has sent Senator Hitchcock another letter relative to the Lodge reservation on Article X, it was announced at the White House today. The letter was in reply to one from Senator Hitchcock. It is understood that the president still maintains his opposition to such a reservation.

## TWO ELEVATOR COMPANIES ARE STARTED HERE

Co-operative Companies  
Capitalize at \$50,-  
000 Each.

Two co-operative elevator companies, each with a capital stock of \$50,000 were formed in Greene county last Saturday.

"The Xenia Farmers' Exchange Company," was organized at an enthusiastic meeting of farmers which was held in the assembly room of the court house. Over 100 farmers have subscribed to stock in the concern. The company expects to buy or erect suitable buildings for the operating of a grain and farmers' supplies business in this city.

The Cedarville Farmers' Grain Company is the name of a new co-operative firm which Saturday night contracted with Milton and Fred Yoder of Cedarville for the purchase of their elevator, hardware and implement business in Cedarville. Nearly 60 farmers have already subscribed for \$30,000 worth of stock in this concern.

It is understood that the consideration to be paid Yoder Brothers for their business is \$25,000.

Yoder Brothers bought the business which they have sold to the new co-operative company, from E. A. Allen a year ago. It was formerly operated for years by Kerr and Hastings Brothers, but was enlarged under the Yoder management.

There are now said to be over 300 farmers' co-operative companies in the state, with \$8,000,000 back of them, handling millions of bushels of grain and millions of dollars worth of supplies annually.

The next meeting of the Xenia Company will be held in the assembly room of the court house Thursday, April 1 at 2 o'clock when by laws and a constitution will be adopted, and a board of directors elected.

A meeting will be held at Jasper Station March 31 at 7 p. m., for the purpose of organizing a co-operative company for that locality.

## AGITATORS ARRESTED IN BERLIN STREETS FOLLOWING RIOTS

"Iron Fist" Showed By  
New Government,  
Report.

Berlin, March 15.—General Nollet, head of the French mission in Berlin, attempted four times on Sunday to confer with the responsible heads of the new government, but was refused permission.

Many agitators have been arrested. The government is showing an "iron fist" and announced that all public utility employees who went on strike would be arrested for high treason.

A foreign office official declared "there would be rivers of blood if a general strike is attempted as the soldiers are itching to begin shooting."

Chicago, March 15.—Fearing starvation unless rescued by nightfall, seventy passengers and members of the crew of the Goodrich liner Illinois, caught in a gigantic ice jam 15 miles off the St. Joseph, Michigan, harbor, early today, wirelessly their dire plight to officials of the line here. A steamer is racing to its assistance with provisions, but unless a favorable wind comes to break the immense ice pack, the rescuers may not be able to reach the helpless vessel.

The Illinois has been caught among the ice floes for a week. The last ounce of food aboard the Illinois will be consumed today, the wireless S. O. S. declared.

For several days the passengers and crew have been on short rations.

## NEW BUSINESS OF STATE DEPT. AT STANDSTILL

Thirty Day Appoint-  
ment of Polk  
Expired.

Washington, March 15.—No new business is being transacted by the state department today, it was officially stated.

The thirty day appointment of Frank L. Polk as acting secretary of state has lapsed under the provisions of the law.

Only those passports which were signed last week are being issued. It is expected that President Wilson will take some steps to correct the situation.

Confirmation of Bainbridge Colby as secretary of state by the Senate is in an uncertain stage.

President Wilson has examined laws and is of the opinion that he cannot transfer the powers of the state department under the Overman act and the situation will be left in the hands of congress, it was stated today at the White House.

## PARIS NEWSPAPERS CONDEMN WILSON FOR RECENT TROUBLE

Say Allied Chiefs Did  
Not Insist On Disarm-  
ament.

Paris, March 15.—The morning newspapers severely condemn President Wilson. Premier Lloyd George and ex-Premier Clemenceau for failing, through the treaty of Versailles, to disarm Germany more completely.

The Matin said:  
"If President Wilson knew that France was militaristic why could he not have foreseen the German coup?"  
The Matin attacked the policies of the "big three" pointing out that one of the first results of their peace treaty was the return to power of the German monarchists and the German general staff.

"Where is the peace of Wilson and Clemenceau?" asks the Populo Romano. "The world is in chaos."

## ALLEGED NEW RULE IS MILITARY JUNTA

Manchester, March 15.—The Manchester Guardian today received an uncensored dispatch dated Berlin Saturday evening, asserting that the new regime there is not a government at all, but a military junta.

"Kapp is chancellor," the dispatch said, "but he is merely the figure head of a military conspiracy."

## HEAD OF GERMAN GOVERNMENT HAS BEEN OVERTHROWN

A proclamation has been issued in Berlin, according to a Reuter dispatch via London, that the Ebert Government has "ceased to exist." Recent reports from Berlin were to the effect that the German Government had discovered a revolutionary plot among the Militarists and that Minister of Defense Noske had arrested the ringleaders. The Government has passed into the hands of the Fatherland Party, which is a coalition of Militarists, Royalists, Junkers and Prussian Conservatives. Friedrich Ebert was elected President of Germany by the National Assembly at Weimar, on February 11, 1919. Gustav Noske, Minister of Defense, had for the year of Ebert's rule completely crushed the frequent revolts of the Spartacists.

## STERN RULE OF USURPERS BREAKS STRIKE OF GERMAN WORKERS THEATENING LAND

The Hague, March 15.—Under the stern rule of the new German government the strike of the German workers in Berlin began to waver Sunday night, according to a dispatch received here just before noon today.

The electrical, water works and tramway workers were said to have returned to work. The strike of other workers continued in force. Some of the railway workers at Berlin have struck and are imperiling the city's food supply by holding up food trains.

Many of the Germans under secretaries in Berlin were reported to have refused to accept orders from Imperial Chancellor Von Kapp.

Three generals accepted dismissal rather than obey the orders of the minister of defense.

The difficulties of the new government were said to be increasing.

## AGREEMENT WITH RUSSIA FOR MONEY AND MEN IS GERMANY'S REAL PURPOSE

Will Attempt To Cause Allies Trouble in East Through  
Plan Devised By Powers Behind Throne.

London, March 15.—The real powers behind the new German government will turn their attention to the east. The present troubles of the allies will be intensified at Budapest and by new threats against the Indian frontier. The idea of the German reactionaries is to organize both militarily and economically as soon as the allied blockade is lifted. While temporizing with the supreme council the German hope to gather Russian cannon fodder and raw materials from Russia. If Poland attempts to obstruct this plan she will be crushed.

The official was quoted as saying:  
"On the advice of Count Von Bernstorff and Baron Von Kuehlmann, Dr. Von Jagow may be expected to ask for the renegotiation of peace in the sense advocated by the 'revisionists' in Rome and London."

In the meantime Germany will decline to be disarmed and the men behind the new German government will turn their attention to the east.

Plan Devised By Powers Behind Throne.

London, March 15.—The real powers behind the new German government at Berlin plan to secure the negotiation of a new peace treaty and eventually to reach an agreement with Russia for war materials—both men and guns—according to the Daily Telegraph today. The Daily Telegraph states that its information came from the same official source which furnished advance news on the German revolutionary plottings.

The official was quoted as saying:

"On the advice of Count von Bernstorff and Baron von Kuehlmann, Dr. Von Jagow may be expected to ask for the renegotiation of peace in the sense advocated by the 'revisionists' in Rome and London.

In the meantime Germany will decline to be disarmed and the men behind the new German government will turn their attention to the east. The present troubles of the allies will be intensified at Budapest and by new threats against the Indian frontier. The idea of the German reactionaries is to organize both militarily and economically as soon as the allied blockade is lifted. While temporizing with the supreme council the German hope to gather Russian cannon fodder and raw materials from Russia. If Poland attempts to obstruct this plan she will be crushed.

"Joint action by Germany and Russia is the immediate danger to the allies.

The danger spot is not the Rhine, but the Vistula and Danube rivers and even farther eastward."

## AMERICAN FORCES WILL MAINTAIN ORDER IN STRIKE CENTERIS BELIEF AT CAPITAL

War Department Awaits Official Word From American  
Commander In Germany On New Plans.

Washington, March 15.—The war department today is awaiting a report from Major General Henry T. Allen, in command of the American troops in Germany, as to the effect of the German revolution upon the allied forces.

Marshal Foch was to have conferred with Major Allen today and it was expected that a detailed report of the plans of the allied leaders would be forwarded to the department.

While officials here declare they cannot comment on the situation in Germany until they have more complete information, it was generally believed

that the American forces would be ordered to maintain peace in the districts over which they have jurisdiction. There were some predictions that the general strikes would cause the first trouble, as press reports reaching Washington indicated that Major General Allen had given orders that he would take over control if strikes threatened the order of the district which he commands.

Advices to the state department as to the revolution have thus far been meager, and have been no more than a summary of press reports.

Prediction that the German revolution is a part of a German plan for a coup d'etat, which includes the economic and political domination of Russia, was made here by Princess Cantacuzene Speransky, formerly Miss Nellie Grant, daughter of General Grant.

## LAST ARGUMENTS IN FRAUD TRIAL BEGUN MONDAY

Grand Rapids, Mich., March 15.—Closing arguments in the vote fraud and conspiracy trial of Senator Truman H. Newberry and 84 co-defendants were begun today. The first address for the prosecution was given by Special Assistant Attorney General W. H. Eichhorn.

It is expected to occupy all of today's session, and will be followed by the first closing argument for the defense. Four days have been set aside for all the closing arguments.

England Notified of Pro-  
posed Uprising Before  
It Began.

London, March 15.—Riots broke out in some of the big German industrial centers, notably Frankfurt, on the Rive Main, and Dusseldorf, when great masses of workers made open defiance to troops that have embraced the cause of the revolutionary militarist government which overthrew the Socialist Ebert regime. The first loss of life is reported from Dusseldorf, the big Rhine town where, as in Frankfurt, street fighting occurred. In both cities the workers declared a general strike, in obedience to the farewell appeal to the Ebert government.

The greater part of Southern Germany infuriated by the high handed methods of the Kapp government of making Prussia once more the center of a struggle for the restoration of kaiserism, is reported combining and organizing to fight the new regime.

Rule With Machine Guns

Wielding a reign of ruthless suppression of all opposition and threatening to break up all strikes with machine gun fusillades, the new regime spent the last 24 hours consolidating its position throughout the greater part of Germany, with the exception of some of the southern states, notably Bavaria and Wurttemberg, where the traditional antagonism toward Prussia shows strong signs of crystallizing into an armed resistance.

In Saxony it won a bloodless victory over an incipient counter-revolt when 3000 Saxon troops under General Markner went over to the Luetwitz army.

Upon these troops Frederick Ebert and his deposed ministry has counted as a nucleus for an army with which to regain power.

Their desertion forced Ebert and his minister to flee from Dresden, the Saxon capital, and they are now heading for Stuttgart, capital of Wurttemberg.

One Dead at Frankfurt.

In an attempt by workers to invade the barracks at Frankfurt one man was killed and four men were badly injured.

August Winnig, governor of East Prussia, and General von Estorff, chief in command of the first reichswehr, have telegraphed Chancellor Kapp the contents of a manifesto issued by East Prussia, recognizing the new government and declaring that "we of East Prussia who are surrounded by enemy neighbors must welcome any development promising our province a chance of peace and work."

The new cabinet has not yet been formed, but it is definitely known that Dr. Traugott von Jagow, former chief of police of Berlin and a notable reactionary, will be Prussian minister of the interior.

The other appointments are in abeyance. It is proposed for the present to have only a two-man cabinet, or directorate, composed of Dr. Wolfgang Kapp and Major General Baron von Luetwitz.

Sanguinary encounters between workmen and troops have occurred in Frankfurt.

A general strike has been called for Monday in Breslau, Magdeburg, Nuremberg and Frankfurt.

Bavaria, Wurttemberg and Saxony have refused to acknowledge the new Berlin government. The troops of Bavaria and Wurttemberg have declared their allegiance to their respective governments.

According to private reports Konstantin Fehrenbach, president of the national assembly, has arrived in Stuttgart and has called a meeting of the national assembly there for Tuesday.

Minister of Transportation Osse has informed Kapp that the allied employees of Prussia objected to a cabinet in which F. J. J. and von Jagow were represented, and that if they remained in office the entire railway forces would strike. The government declined to make a promise.

The general strike is spreading all over Germany. It was effective in Berlin today. All the cafes were closed.

The Socialist cabinet at Munich has retired and a bourgeois cabinet is being formed.

## NINE HUNDRED HOMELESS WHEN FIRE HITS CITY

Grand View, Tex., March 15.—With 900 homeless and property loss estimated at \$1,500,000, the business section of this city was still burning early this morning. The fire originated in the southern part of the city and the flames, swept by a 45 mile wind, soon got out of control. Seven business blocks and 175 of the city's finest residences have been

Paris, March 15.—Fifty persons have been killed at Kiel and thirty at Essen in fighting between rival German factions according to a dispatch to the Journal today.

Paris, March 15.—French troops on the Rhine have begun a forward movement on orders from Marshal Foch, it was reported today. Heavy forces of French infantry,

## Dutch Guarding Kaiser; Fear Exist

The Hague, March 15.—Special precautions have been taken by the Dutch government to prevent the escape of the ex-kaiser and the former German crown prince by airplane.

The guards at Amerongen, where the ex-kaiser is living and those on the German border have been increased. Heavy force of Dutch royal mounted police, commanded by a cavalry captain from the regular army, is doing sentry duty at Amerongen.

There is great activity at the castle of Count Bentinck, at Amerongen. A constant stream of motor cars were going and coming from the ex-kaiser's residence all day Sunday.

The former crown prince in his lonely refuge on the island of Wieringen is reported to be deeply agitated and anxious for the latest news from Germany.

supported with artillery, are being concentrated in the French zone of occupation in Germany.

The French army of occupation is already making its way through the Rhineland villages, it is reported. Eighty persons were wounded at Essen in addition to the killed, the dispatch added.

(Essen is the seat of the Krupp works.)

Paris, March 15.—A message received today by the German charge d'affaires, filed in Berlin at 9 p. m. last night, states that the city is quiet.

The Ebert government has no intention of asking the aid of foreign governments, according to Herr Kaufbeuren, the charge. He believes the struggle will last at least three months. A great deal depends on the decisions reached at Stuttgart tomorrow.

Pasadowski, the nationalist leader, has announced his support of the Ebert government.

## GUN FLASHES

LOOTING BREAKS OUT

London, March 15.—A Berlin dispatch to the Times dated Sunday night, said that looting had broken out in some districts of the German capital, but no details were given.

PEOPLE UNSYMPATHETIC

London, March 15.—Dr. Wilhelm Mayer Von Kaufbeuren, the German charge d'affaires in Paris, has sent a communication to the British foreign office asserting that the Kapp-Luetwitz coup has not received the support of a majority of the German people.

The government of Chancellor Bauer, the communication says, is the only "regular" government in Germany.

FUCH IN MAYENCE

Paris, March 15.—March 15.—Marchal Foch arrived at Mayence today for a conference with the commanders of the American, British and French armies of occupation in Germany.

TURKS TAKEN OVER

Paris, March 15.—It was reported here today that Anglo-French officers will take over the Turkish war ministry at once.

DOUBLE GARRISONS

Paris, March 15.—Immediate doubling of the French garrisons at Wiesbaden, Neustadt and Bonn is under consideration by the government, according to the Petit Parisien today.

PRINCE EMPEROR

Paris, March 15.—Persistent reports were current here today, based upon advices from Switzerland and Holland, that Prince Eitel-Friedrich, second son of the ex-kaiser would be proclaimed emperor of the new Berlin government.

Both sides are preparing for a bitter struggle for national supremacy. Bavaria, Baden and Wurttemberg are said to be supporting Ebert and Bauer—the chiefs of the old government.

England notified of proposed uprising before it began.

Berlin, March 14.—(Midnight)—Frederick Ebert, president of the old German government, today refused to enter into negotiations with the new regime headed by Imperial Chancellor Wolfgang Von Kapp.

Germany has two governments. The new regime holds Berlin. The old government was temporarily established at Dresden, Saxony, but is reported already to have moved to Stuttgart, in Wurttemberg.

Both sides are preparing for a bitter struggle for national supremacy. Bavaria, Baden and Wurttemberg are said to be supporting Ebert and Bauer—the chiefs of the old government.

England foreign nation, presumably England, is understood to have received notification of the revolt in advance. This foreign nation is said to have given assurance it would not intervene.

All political factions and the workmen are becoming evolved in the strife.

The general strike is spreading swiftly through the nation. Leaders of the conservatives and the nationalists (the supporters of the Von Hindenburg presidential candidature) have promised to support the Von Kapp regime if it appoints "experts" to the ministry.

General Ludendorff, one of the military idols of the country, called upon General Baron von Luetwitz, commander in chief of the new government's army, but it is not known if he offered his support to the new regime.

The imperial chancellor has promised to issue election writs within sixty days to elect a national assembly.

Berlin, March 14.—The new government recognizes all financial obligations and the foreign policy of Germany will remain unaltered, declared Dr. Von Kapp today in an interview. He described the present situation as being purely internal.

Throughout the interview Dr. Kapp spoke German, although he speaks perfect English, having been born in the United States.

In outlining the policy of the new government, he said:

"The terms of the peace treaty will be carried out in every respect which is compatible with our national honor and fidelity, and so far as it does not mean the nation's suicide.

"Strikes and sabotage will be ruthlessly suppressed. The new government guarantees the freedom of religion and the re-establishment of religious educational institutions."

One official attached to Chancellor Von Kapp's office declared that he had interviewed General Bingham, of the British army of occupation, who approved the plan of the uprising.

One of the first official acts of the new government was to issue a warrant for former Minister of Finance Mathias Erzberger, charging him with treason. Dr. Erzberger was leader of the Centrum party.

Announcement was made that the present ministry is temporary and that a coalition cabinet would be formed later on.

Some of the statements issued by the officials indicated that they were emphasizing the strength of the revolutionary movement by showing that it had support in certain allied quarters.

## BOYS LOCATE BODY OF MISSING WOMAN SUNDAY

Missing since March 6, the body of Miss Minnie Deem, 33, was found yesterday on the Patterson estate, Oakwood, Dayton, by five boys taking pictures.

The body was found in a lonely part of the estate and two bottles, said to have contained acid, and a glass were found nearby by Sheriff Olt. Miss Deem left her lodging at 267 Lafayette street, Dayton, on the morning of March 6, and at noon drew her pay of \$15 at the N. C. R. where she had been employed. She was not seen afterwards until her body was discovered Sunday. Her home was formerly at New Paris and her parents live there now.

## ENTERS PRESIDENT RACE IN LINCOLN

Lincoln, Neb., March 15.—The presidential candidacy of General John J. Pershing was formally launched here with the filing in the secretary of state's office of a voter's petition signed by 5,000 Nebraskans asking that his name be placed on the primary ballot.

Hiram Johnson and General Leonard Wood are the only other candidates who have entered Pershing's home state.

## EUROPEAN NATIONS DEVOTED TO U. S. SAYS SPEAKER UPON PRESENTING CERTIFICATES TO RELATIVES OF DEAD

"As time passes on we may be assured that in England and France and Belgium, there will rise up generations that will express the same degree of devotion to the United States as we do when we think of the service rendered to us by France and Poland during the Revolution," said Chief Justice Hugh L. Nichols of the Ohio Supreme Court, in his address here Sunday.

Chief Justice Nichols gave the principal address at the memorial meeting held in the opera house by Joseph P. Foody Post, No. 95, of American Legion, which organization caused the presentation of the engraved memorial certificates of the French government to the next to kin of soldiers, sailors and marines, who died in the service.

The jurist paid a tribute to the American Legion, which organization was made the medium by the French government and the United States War Department, for the distribution of the memorials. "While it would be unbecomingly to boast unduly, we may be sure that the American boys who died in Europe struck the final blow that made it possible for freedom to be secured for the world. We cannot forget that the boys who died not only helped to save Europe from the horrors of the war, but that the conditions prevailing there had Germany won the war, would sooner or later have been visited upon the United States," said the speaker.

Talks on Grant

Justice Nichols devoted the latter part of his talk on personal reminiscences regarding General Grant, who was a native of the speakers' home county, Clermont. When General Grant died in 1885, Judge Nichols said that he was a boy of 16, and as correspondent for a Cincinnati newspaper, secured much hitherto unpublished facts regarding the hero's early life. In securing the facts he interviewed Samuel Simpson, a 90 year old uncle, who told him many intimate details of the early life of Grant.

Preceding the address of Justice Nichols, the Rev. William P. O'Connor, commander of the Wilbur H. Thomas Post, No. 159, of American Legion of Jamestown, gave a short eulogy to the men who fought for freedom and died in France. Father O'Connor was an overseas chaplain with Ohio's fighting Thirty-ninth division.

Captain Charles L. Darlington, commander of Joseph P. Foody Post presented at the service, and the invocation was asked by Rev. Albert A. Burke, followed by "America" sung by the audience. The American Legion orchestra, under the direction of Dr. A. B. Kester, played several selections, and the American Legion quartette sang "The Vacant Chair," and "Till We Meet Again." Prayer was offered by Dr. Ben R. McClellan, chaplain of Foody Post.

The national anthem was sung by the audience preceding the benediction given by Rev. G. W. Becton.

Present Certificates

Following the services relatives of the honored dead were requested to step upon the stage where Post Commander Ohmer Tate of Foody Post, presented the certificates each of which was tied with a red, white and blue ribbon. The stage was decorated with flags and flowers.

The following is the honor roll of dead to whose next to kin the certificates were presented: Joseph P. Foody, Ralph T. Harness, Earl W. Carroll, Leroy Baugous, Robert E. Weddle, Charles L. Charlton, John Roan, Ora Free, J. Roy Frame, Leotas Broadie, Wallace C. Anderson, John W. Shears, Jasper Hayslip, George E. Digman, Forest Alvin Wise, John P. Gearin, Jesse Simpson, William Stollings, Leroy Burba.

The certificates which express the gratitude of the French government, show a group figure from the cenotaph in the Avenue des Champs Elysees, Paris. In the scroll above are the dates 1914-1919. Above the group is a quotation which freely translated reads: "The people should come to pray at the graves of those who died for their country." The inscription reads: "To the memory of ———, of the United States of America, who died for liberty during the great war the homage of France," and the engraved signature of the President of the French Republic, Raymond Poincare.

Weak and All Run Down But Vola-Tonic Brought Back Strength.

Mrs. E. M. Smith, 2518 Gilbert avenue, Cincinnati, suffered with her stomach two years and got so bad recently that for two months she wasn't able to do a bit of her housework.

"I took Vola-Tonic and now I am a great deal better," Mrs. Smith said. "I was in such bad condition before I took Vola-Tonic that I could hardly keep food on my stomach at all. I had headaches all the time, too, and I was very nervous."

"For two months recently I felt so badly that I wasn't able to do any of my housework."

"Then I started taking Vola-Tonic. I hadn't taken more than a few doses of Vola-Tonic before I could see results."

"I continued taking Vola-Tonic and now my stomach is in much better condition and my nerves are about normal. I am much stronger than before."

"I know I have derived a great deal of benefit from taking Vola-Tonic and I want to recommend this medicine to everybody who feels weak and run down and needs more strength."

Vola-Tonic, "Builder of Strength," has helped thousands of weakened, run down men and women back to health and strength and it will do for YOU what it has done for others. If you are feeling weak and run down get Vola-Tonic—TODAY!

Vola-Tonic is being specially introduced in Xenia at Sayre and Hemphill's and in Jamestown at W. F. Harper's, in South Charleston at Claud W. Deem's.

## SHE COULDN'T DO A BIT OF WORK 2 MONTHS

**Weak and All Run Down But Vola-Tonic Brought Back Strength.**

Mrs. E. M. Smith, 2518 Gilbert avenue, Cincinnati, suffered with her stomach two years and got so bad recently that for two months she wasn't able to do a bit of her housework.

"I took Vola-Tonic and now I am a great deal better," Mrs. Smith said.

"I was in such bad condition before I took Vola-Tonic that I could hardly keep food on my stomach at all. I had headaches all the time, too, and I was very nervous."

"For two months recently I felt so badly that I wasn't able to do any of my housework."

"Then I started taking Vola-Tonic. I hadn't taken more than a few doses of Vola-Tonic before I could see results."

"I continued taking Vola-Tonic and now my stomach is in much better condition and my nerves are about normal. I am much stronger than before."

"I know I have derived a great deal of benefit from taking Vola-Tonic and I want to recommend this medicine to everybody who feels weak and run down and needs more strength."

Vola-Tonic, "Builder of Strength," has helped thousands of weak, run down men and women back to health and strength and it will do for YOU what it has done for others. If you are feeling weak and run down get Vola-Tonic—TODAY!

Vola-Tonic is being specially introduced in Xenia at Sayre and Hemphill's and in Jamestown at W. F. Harper's, in South Charleston at Claud W. Deem's.

### ONE WOMAN'S EXPERIENCE

Of Interest to Expectant Mothers

Goshen, Ind.—"I took Lydia E. Pinkham's Vegetable Compound with good results after I had suffered for some time with female trouble. Some years ago I had twin boys and took your Vegetable Compound before they came also before my four-year old boy was born, and afterwards, and think it fine for such cases. I tell others what it did for me and you may publish my testimonial."

—Mrs. Geo. A. Foos, 711 S. 9th St., Goshen, Indiana.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong and this good old fashioned root and herb remedy contains no narcotics or harmful drugs.

## EUROPEAN NATIONS DEVOTED TO U. S. SAYS SPEAKER UPON PRESENTING CERTIFICATES TO RELATIVES OF DEAD

"As time passes on we may be assured that in England and France and Belgium, there will rise up generations that will express the same degree of devotion to the United States as we do when we think of the service rendered to us by France and Poland during the Revolution," said Chief Justice Hughes L. Nichols of the Ohio Supreme Court, in his address here Sunday.

Chief Justice Nichols gave the principal address at the memorial meeting held in the opera house by Joseph P. Foody Post, No. 95, of American Legion, which organization occasion of the presentation of the engraved memorial certificates of the French government to the next to kin of soldiers, sailors and marines, who died in the service.

The jurist paid a tribute to the American Legion, while organization was made the medium by the French government and the United States War Department, for the distribution of the memorials.

"While it would be unbecoming to boast unduly, we may be sure that the American boys who died in Europe struck the final blow that made it possible for freedom to be secured for the world. We cannot forget that the boys who died not only helped to save Europe from thrall-dom worse than death, but that the conditions prevailing there had Germany won the war would sooner or later have been visited upon the United States," said the speaker.

Talks on Grants

Justice Nichols devoted the latter part of his talk or personal reminiscences regarding General Grant, who was a native of the speakers home county, Clermont. When General Grant died in 1885, Judge Nichols said that he was a boy of 16, and as correspondent for a Cincinnati newspaper, secured much hitherto unpublished facts regarding the hero's early life. In securing the facts he interviewed Samuel Simpson, a 90 year old uncle, who told him many intimate details of the early life of Grant.

Preceding the address of Justice Nichols, the Rev. William P. O'Conner, commander of the Wilbur H. Thomas Post, No. 159, of American Legion of Jamestown, gave a short eulogy to the men who fought for freedom and died in France. Father O'Conner was an overseas chaplain with Ohio's fighting Thirty-ninth division.

Captain Charles L. Darlington, commander of Joseph P. Foody Post presented at the service, and the invocation was asked by Rev. Albert A. Burke, followed by "America" sung by the audience. The American Legion orchestra, under the direction of Dr. A. B. Kester, played several selections, and the American Legion quartette sang "The Vacant Chair" and "Till We Meet Again." Prayer was offered by Dr. Ben R. McClellan, chaplain of Foody Post.

The national anthem was sung by the audience preceding the benediction given by Rev. G. W. Beeton.

**PRESIDENT MAKE NEW SELECTION**

Washington, March 15.—President Wilson has selected William Martin Williams of Alabama as commissioner of internal revenue to succeed Daniel C. Roper. It was announced at the White House today.

Williams is now solicitor in the department of agriculture.

**RATIFICATION OF TREATY HOPELESS**

Washington, March 15.—A curt, flat rejection by the president of Senator Lodge's proposed substitute for the original reservation to article ten rendered ratification of the peace treaty more hopeless today.

It was learned what was described at the White House as "another letter" from the president to Hitchcock was a short communication written by the president on the back of one he received from Hitchcock.

# NECK RUFF AGAIN ENTERS FASHION FIELD

Just after the seal of approval has been put upon very low necks, very short sleeves, and very short skirts, Paris has again changed her mind, and long, tight sleeves and high necks are said to be coming back. This, when the short sleeves have barely arrived on this side of the Atlantic! Not only are high necks predicted, but the huge neck ruffs of long ago are actually being worn in France and England. While as yet they are rather simple with but one layer of pleated material, it is being speculated as to whether the regular ruff as worn in the days of Queen Elizabeth will not soon be the vogue.

## MEXICANS RELEASE AMERICAN FRIDAY

Washington, March 13.—Peter W. Sommers, an American who was kidnapped by the Mexican bandit Jesus Marella at Santa Lucrecia, was released on the morning of March 12, according to advices to the state department today.

Sommers has returned safely to his home at Salina Cruz. The release was effected by Mexican federal soldiers.

## "YES" OR "NO" WHICH DO YOU SAY?

Folks With Thin, Pale Blood Hesitate—Feel Uncertain.

## SHOULD TAKE PEPTO-MANGAN

Red-Blooded Men and Women Know What They Want To Do and Do It.

If may be you are just recovering from a sick spell—or maybe your system is run down and your blood so weak that you are in a poor shape to resist infection—

But if you don't feel and look robust you are not robust. Such state is often due to weak blood, not enough red blood cells, a condition known as anemia.

The best remedy for anemia (blood-lessness) with low mental and physical vigor is Gude's Pepto-Mangan.

Pepto-Mangan supplies the weak, watery blood with the very elements it needs to put new life into it. It repairs, re-creates and rebuilds the exhausted blood, the vital fluid of health and life. Try Pepto Mangan if you are "rundown." It cannot harm you—it will certainly help you unless you have some deep-seated chronic disease requiring the physician's care. Be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto Mangan. For sale at all druggists.—Adv.

## FRENCH MILITARY AUTHORITIES ARE TOLD TO BE CAUTIOUS

Overthrow of German Government is Cause of Alarm.

Paris, March 13.—French military authorities in the Rhineland were ordered this afternoon to take precautionary measures as a result of the overthrow of the German government by the German militarists and monarchists.

The council of allied ambassadors met this afternoon and heard a report from Marshal Foch. News of the German revolution was received early this afternoon just as the ambassadors were assembling.

Marshal Foch also conferred with Premier Millerand and officials of the war office and General staff.

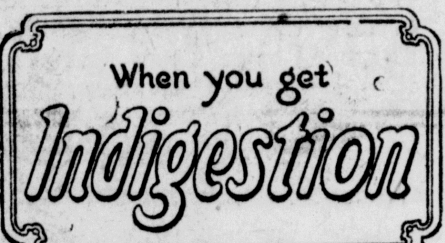

The report made by Marshal Foch to the ambassadors included conditions in the Rhineland district which is occupied by allied forces of occupation.

The government is anxiously awaiting reports from the allied missions in Berlin on the situation there.

## EXPENSE DOUBLE.

Columbus.—Students attending Ohio State University are paying twice as much to obtain an education as did students prior to the recent war.

Statistics collected by the "Boost Ohio" organization at the university show that men and women students are now paying over \$700 annually as against not to exceed \$389 seven years ago. These estimates are based on information received from over 500 students.

"Pape's Diapiesin," helps regulate disordered stomachs so favorite foods can be eaten without causing distress. Costs so little at drug stores.

## STAGE TOO SMALL; SHOW CAN'T COME

An upturned straw brim with bright flowers of every hue in the front—and a satin crown.

## DIES SUDDENLY.

Bellaire.—Mrs. Jacob Rauch died Sunday of pneumonia and was to have been buried Tuesday afternoon. Her husband succumbed an hour and a half prior to the funeral and it was, accordingly postponed until this afternoon when a double funeral will be held. Mr. Rauch died of the same disease.

Because the stage at the Opera House was too small, the Standard Amusement Company was prevented from showing one of the biggest productions of the season here after it had already been booked.

The management scheduled "Somebody's Sweetheart," a big hit, for the local house, had the date reserved and all printed matter made. A representative of the show company came here Sunday, however, and after looking over the local house decided the stage was not large enough to hold the performance. Alterations in the stage to take care of the balcony scene were found to be impracticable and unavailing. The cast includes 43 people.

## The After Effects of Pneumonia

This is No. 2 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Pneumonia attacks the air cells of the lungs. An inflammation is set up and matter is thrown off which causes the air cells to solidify, thus preventing the natural flow of blood thru the lungs. This "backing up" of the blood causes the heart to pump harder, just as stepping on a hose increases the water pressure, which is the reason why, during this disease, the physician watches the overburdened heart so carefully.

After recovery the lungs are filled with a mass of wreckage—the debris of the battle—which must be gotten rid of by a process known as resolution. Frequently, inflamed spots remain, congestion persists, cough hangs on, and the least exposure brings on a cold that is hard to get rid of. If neglected, such damaged air passages may easily develop serious disease of the lungs.

Such cases should always continue under a physician's care and frequent examinations should be made to see that nature is properly continuing the rebuilding process.

Nightly applications of Vick's VapoRub will aid nature in this work. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 232 Broad Street, Greensboro, N. C.

Nightly applications of Vick's VapoRub will aid nature in this work. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 232 Broad Street, Greensboro, N. C.

## THE LEAGUE OF NATIONS. A VITAL GOING CONCERN WITHOUT, ISSUES AN IMPORTANT DOCUMENT.

In our own unseemly flurry here in the United States about the adoption of the German Treaty, we lose sight of the fact that this great Treaty has been adopted by all the other Allied Powers, including also the League of Nations, and that the world is moving along in carrying out the provisions of these great documents, without the co-operation of the United States. In this important world movement, so far, we are acting the part of the spoiled child, and REFUSE TO PLAY.

Shame on us, after having given the lives of hundreds of our brave young men in the cause of the peace of the world, to fall down and refuse to give our national endorsement to a Treaty to end war forever, so far as within our power. Morally we entered into a solemn pact, and then refuse to carry out our part of the bargain—in effect desert our partners, and dishonor ourselves.

But the other partners in the vital transaction were not so vicious in action. They stood up to their agreement. They said, in effect, "this is no child's play—we understand it to be a man's job and we are going through with it." So the League of Nations is in effect—is being carried out as per program—but to our shame, without us in it.

Dispatches from London tell of the regular meetings of the Supreme Council of the League and of the transactions thereof. At a meeting on Tuesday, the 9th, the Council issued a Memorandum on World Conditions. We note some of the most important features of this important document, as follows:

It is of paramount importance that peace conditions should be fully and completely restored at the earliest possible moment. That armies everywhere should be reduced to a peace footing, that armaments should be limited to the lowest possible figure. That states which have been created or enlarged as a result of the war should immediately re-establish full and friendly co-operation.

The powers represented at the conference recognize the necessity for continued co-operation between the Allies and for the removing obstacles to the easy interchange of essential commodities. They will continue to consult together regarding the provision and distribution of necessary raw materials and foodstuffs with a view to the early restoration of normal conditions.

The powers represented at the conference have given careful attention to the special case of the devastated regions, and more particularly of northern France. The restoration of those areas is of primary importance for the establishment of the economic equilibrium of Europe and the resumption of normal trade conditions. It is evident that the large sums required for that purpose cannot be provided out of the current revenue, nor can the work of restoration be postponed until the reparation due from Germany under the treaty of peace has been received. The council recognizes that the capital sums required for that restoration may properly be raised by market loans, in anticipation of the reparation payments provided for by the treaty, and that the restrictions which they desire to see placed on new borrowing do not apply to loans and credits raised for the purpose of meeting this abnormal capital expenditure.

The powers represented at the conference have taken under consideration Article 235 and cognate articles of the treaty of Versailles and passages in the letter addressed June 16, 1919, by the supreme council to the peace delegates, which contemplate that Germany shall make proposals for fixing the total of payments to be made by her by way of reparation and that facilities may be given her to obtain necessary foodstuffs and raw materials in advance of the payments being made by way of reparation.

It is most desirable in the interests of the Allied countries no less than of Germany that at the earliest possible moment the total of repayments to be made by Germany under the treaty of Versailles should be fixed, and that in accordance with the terms of the treaty and the reply of the powers to the German delegates, dated June 16, 1919, she should be enabled to obtain essential foodstuffs and raw materials, and, if necessary in the opinion of the reparations commission, should be allowed to raise abroad a loan to meet her immediate needs of such amount and with such priority as the reparations commission may deem essential.

U. S. WILL INSIST THAT TURK GETS OUT OF EUROPE.

Uncle Sam says the Turk must leave Europe! The United States is ready to take strong ground to that end and to help in accomplishing it. As soon as the opportunity arrives the American position will be announced. In a nutshell, it will be to the above-mentioned effect.

America has not been at war with Turkey. We are no party to the present European negotiations regarding the Near East. Yet the United States Government feels that the interests of international civilization require that Ottoman power be driven forever from Constantinople. That includes, of course, the expulsion of the sultan from the Bosphorus.

It is highly probable that the first diplomatic document to bear Bainbridge Colby's signature as secretary of state will be a ringing pronouncement from President Wilson, outlining America's views on the Turkish problem. To date those views have not been officially called for by Great Britain and France, the two European powers chiefly at interest, but it is known at the State Department that American co-operation in the settlement is desired and expected.

TRADE WINDS SWEEP "ROOF OF THE WORLD."

Trade winds, sweeping from west to east at 400 to 300 miles an hour, were discovered at 30,000 feet by Major Rudolph W. Schroeder, army test pilot at Dayton, before he fell approximately five miles and landed without crashing after establishing an altitude record of 36,020 feet in a recent flight.

"At the peak of my climb, where I hung with slightly upward progress for fifteen minutes, I found the winds blow toward the east at the rate of 220 miles an hour," he said. "I had started thirty miles west of Dayton, my machine had a speed of 100 miles per hour, and as I steered westward I was literally traveling backward 120 miles an hour, or two miles a minute."

"I have not been able to figure out exactly just what the roof of the world really is. I think it possible to go much higher than 48,000 feet, which scientists believe is the ultimate ceiling of the world. But I believe it to be a question of fuel supply."

Major Schroeder said that after his month's furlough he would make another aerial exploration. He added he intended rigging up a pilot's "cage" into which oxygen could be pumped, as in a submarine.

IN THE HOLE.

IF you're in the hole at present, when the times are brisk and pleasant, and the stream of scads is flowing everywhere, its lustre showing, what will be your situation if a panic hits this nation? If a bigger bill you're running, if you keep the merchants dunning, now that every form of cash is growing thickly on the bushes, where, O neighbor, shall we find you when the hard times come and grind you? Every gent is earning wages never known in bygone ages; situations are a-plenty, for each man are eight or twenty; and there's such a wealth of plunder that we tread the blamed stuff under. Every delegate who's willing has his chance to make a killing, has a chance to store the guilders, like the other fortune builders. If you cannot do some saving, now that all the world is raving in its lust for reckless spending, where, O neighbor, are you wending? To the poorhouse in the valley, where the down-and-outers rally? To the dump where jays are carted when they're strapped and broken hearted?

## CHATTER

She was the sort of woman who always tells everybody her business. With a cheery smile she settled herself at the counter and began: "My husband has been very ill—very ill—"

so I have to do his shopping; and I want a shirt." "Certainly, madam," said the salesman, courteously; "stiff front and cuffs?" "Oh, no!" she exclaimed in horrified tones. "The doctor says he must avoid anything with starch in it."

It was in Paris. The talkative guide was exhibiting to the interested American tourist the tomb of Napoleon with all the customary flourishes of both language and hands.

"This immense sarcophagus," exclaimed the guide, "weighs forty tons. Inside of that, sir, is a steel receptacle weighing twelve tons, and inside of that is a leaden casket, hermetically sealed, weighing over two tons. Inside of that rests the mahogany coffin containing the remains of a very great man."

For a moment the American was silent, as if in deep meditation. Then he said: "It seems to me that you've got him all right. If he ever gets out, cable me at my expense."

Just as the orator of the day was about to begin his address at a banquet a tray in the kitchen upset and the clatter of dishes could be heard for two blocks.

The toastmaster, however, was equal to the occasion.

Calling on one of the waiters, he ordered:

"Say, please tell the jazz orchestra to stop playing until the speaking is over."

## HE WAS CALLED A LOAFER BUT HE WAS SICK

Thousands Are Sick But Get No Sympathy or Help Because They are Not Bedfast.

A healthy man or woman simply cannot loaf. When you lack energy and vitality you don't feel like working. All the organs of your body are sluggish. You are not keen for either pleasure or work. You eat a plenty perhaps—but your stomach and digestive organs do not build up your strength. Dissipation in one form or another may have caused your trouble. Nature needs the help that Cadomene Tablets will afford anyone suffering with that tired feeling, with headaches, body pains, restlessness, sleeplessness, despondency, loss of energy, etc. Try taking Cadomene Tablets instead of using strong stimulants like whiskey or wine. They will give appetite, aid digestion, enrich your blood, strengthen your nerves and make of you a real, live healthy, energetic person. All druggists can supply Cadomene Tablets in sealed tubes—Adv.

## CHANGES IN CITY BUILDING EFFECTED

Fixtures of the Xenia Water Company have been moved to the office of City Auditor T. H. Zell in the City Building and are at present being re-installed there.

The water company's office will be in the present offices of the auditor, where bills can be paid to the cashier, Mr. Zell's office will be in the room now occupied by the Social Service League, an arch way being cut through from the present auditor's room to throw them both together.

The Social Service League will occupy the room in the southeast corner at present used by the engineers, and the League will also have a part of the commission chamber. The part of the old commission chamber partitioned off from the Social Service League will be used by the city engineers.

The police court has been dismantled for its renovation into the commission chamber and police court combined. Neither, it is said will interfere with the other. A partition has been built around the cellar door in this room, the ceiling has been replastered, and both walls, ceiling and floor will be painted.

## Is It Yours?

This is the Birthday of Andrew Jackson March 15, 1767

It has been said of Andrew Jackson that he was the only President who went out of office more popular than President of the United States.

He was born in either North or South Carolina, received but little education and took an unimportant part in our Revolution. But he gained distinction as a soldier in the War of 1812. He naturally combative disposition made him an excellent military man although it frequently led him into trouble in peaceful times. He fought one duel with Col. Avery over a quarrel in a court room; fought and killed Charles Dickinson in a duel in which he was wounded; and later received a second wound in a quarrel with Jesse and Thomas Benton in a tavern. Thomas Benton later became one of his best friends.

Jackson appealed to the common people whose champion he always was. He himself came from the lower classes and his sympathies were always opposed to men of great wealth, and sometimes to men of great education. He was supposed to represent the spirit of the free American of his day, and as President he did a great deal of good. He advocated small expenditures, low taxes and payment of debts. He died in Tennessee in 1845.

## IN MOTHERHOOD

A woman needs all the strength possible to take good care of her baby. The reflections of a married woman are not pleasant if she is delicate, run-down, or over-worked. She feels "played out." Her smile and good spirits have taken flight. It worries her husband as well as herself.

This is the time to build up her strength and remove those weaknesses or ailments which are the seat of her trouble.

Dr. Pierce's Favorite Prescription regulates and promotes all the proper functions of womanhood, enriches the blood, dispels aches and pains, melancholia and nervousness, brings refreshing sleep, restores health and strength. It overcomes those disorders and derangements of womanhood. It makes weak women strong and sick women well. All druggists. Liquid or tablets.

CLEVELAND, OHIO.—"In my early married life I had woman's trouble. I took medicine of different kinds but did not get any relief until I began taking Doctor Pierce's Favorite Prescription, and two bottles completely cured me of my weakness, and I afterward became the mother of strong, healthy children. 'Favorite Prescription' made a new woman of me, and I am glad to recommend it. I want to say that women who are weak and ailing should give this wonderful woman's medicine a trial."—Mrs. EMMA STROHMEYER, No. 2461 East 82nd Street.

Ivan Olson.

Veteran infielder who's booked to play second instead of short for the Dodgers this coming season.

Comes the dope from the Dodgers' camp that Ivan Olson, veteran infielder, will be seen cavorting at second instead of at his usual berth around second base in the 1920 campaign instead of at his usual berth around short. The reason given is that Ole's legs are giving out a bit and his arm lacks the strength of old. However true this may be, Ole looked last season as though he can put up a high class article of ball at second, at least, for several seasons to come.

The fiery Swede has had an interesting career.

He was born October 14, 1885, in Kansas City and a few days later was throwing a rattle with such unerring accuracy from any position that the whole family agreed he was hooked to play an infield position in the big league as soon as he got big enough to fill a uniform. He started his diamond career with Muskogee in the Three-I league in 1906, but went to Webb City in the Western Association before the season was over. He played third and then short. He struck at the shortfield job with Hutchinson in 1908 and Portland in 1909-10.

His work in 206 games in 1909 and 210 in 1910 caused the Cleveland club, which then had a working agreement with Portland, to claim him. He was the Cleveland club's regular shortstop in 1911, playing 140 games. Had not Ray Chapman bobbed up he might still be a member of the Indian infield. Ray came in 1912 and while Owner Somers was trying out combinations at short and second Ole played third base. In 1913-14 Olson played at various times, every infield position for the club. In 1915 the club asked for waivers on him and Cincinnati paid the waiver price for him and turned him over to Brooklyn. He was juggled about the infield and even served in the outfield during the 1915-16 campaigns, but the last three years has been the Dodgers' regular shortstop. Last year he ranked fourth in fielding but, to some critics

## BEGIN TO PURIFY YOUR WINTER BLOOD

Grandmother's Old-Fashioned Sulphur and Molasses Did It.

But Not So Well As This Sulphur Tablet—Sugar Coated

Through the winter the blood accumulates poisons because you do not perspire enough, because you do not live in the open air, and because you eat more meat, mush and other rich foods. Every spring we feel sluggish, constipated, liver and kidney ills beset us, colds and chronic coughs, pimples, boils and carbuncles, all evidence of impure, thick, sluggish blood.

Sulphur Tablets (not sulphur tablets) are composed of extracts of roots and herbs, combined with sulphur and cream of tartar—and no better physic, blood tonic and blood cleanser has ever been developed. Every spring thousands who already know their value take them to purify the system of Winter Poisons. Now is the time to begin, so you won't be attacked by serious ailments when Spring and Summer come. Sold by all druggists 50c per sealed tube with full directions.

seemed to cover less ground than usual. He never has been a hard hitter, but, oddly enough, last year was his best year with the war club. He piled up a .278 average in 140 games.

## BEAVERCREEK WINS GREENE COUNTY B. B. CHAMPIONSHIP CUP

Beavercreek won the silver loving cup in the sixth annual Greene county high school basketball tournament held at Antioch College by winning over Xenia in the final game at Kelly Hall Saturday night.

This was the first time that the present champions have held the cup and title. Immediately following the game the champions were presented with the large three year cup and a smaller permanent trophy. Xenia High was given the second prize, a cash purse. The girls cup was presented to Yellow Springs High while the cash prize for second place went to Cedarville.

No team could dispute the right to Beavercreek to the championship as they defeated the acknowledged three strongest teams, eliminating in turn Osborn, Yellow Springs and Xenia.

**Semi-Finals.**  
Xenia High won their way into the finals by winning from Bellbrook 28 to 23 in the semi-final round. The game was not as close as the score would indicate for though coming out with a lead of only five points the local team could have made it more if they had desired. Bellbrook came back strong in the second half and sprang a big surprise when they caught up with and passed the local team but they could not hold this advantage and lost out.

Maurice Brocco snatching bite between sprints.

A real meal is about the last thing the riders in the annual six-day bicycle race in New York think of after the big grind ends. While the endurance contest is on the men must eat sparingly, their food consisting of small portions of only the most nourishing things. These bites are taken between their turns on the track. Maurice Brocco, one of the contestants, is shown above.

## BOXING COMMISSION ESTABLISHED IN CITY

In view of the advent of the boxing game in this city, City Manager Kenyon Riddle has appointed a city boxing commission to handle and regulate all boxing shows in the future.

The commission conforms with the state law and is composed of Dr. H. C. Messenger, examining physician, Attorney J. Kenneth Williamson, Findlay M. Torrence, James Lealey and William Foley.

The purpose of the commission will be to regulate all boxing, see that the participants are in proper physical

condition and are matched so that one will not have an unfair advantage over the other. The commission is also empowered to stop all fights in which one of the participants is physically unfit to continue the fight or in which one is taking unfair advantage over the other.

The new commission will function for the first time Tuesday night, when a show will be put on here under the management of the Xenia Athletic club. The commission will occupy ringside seats, the compliments of the match makers putting on the show.

## CLASS GAMES ARE PLAYED MONDAY

Central High School basketball class games will be played at the rink Monday afternoon with two games scheduled.

The Seniors will take on the Sophomores while the Juniors will mix it with the Freshmen, in the annual interclass frays. Interclass rivalry and spirit always makes these games interesting and it is expected that interest will be rife for the court contests.

## DAVIS MEETS BROWN IN HEADLINER AT OPERA HOUSE TUESDAY

Tickets were placed on sale Saturday for the boxing program of the Xenia Athletic Club to be held at the opera house Tuesday night.

Battling Davis who made a local hit at the last boxing show in his bout with "Hip" Howell of Dayton, will again headline the attractions. Davis won a newspaper decision over Howell in the previous battle. This time the Fort Wayne battler will hook up with Chuck Brown of Toledo, who is hoping to stop the Hoosier. They will fight eight rounds at 145 pounds.

Rivalling the main mill in interest is the go between Eddie McManus of Dayton, well-known by local fans and Whitey Clark of Springfield. The Home City product issued a challenge to anyone in his class at the Labor Day bouts but had no takers and local fans welcome an opportunity to see him in action. The bout will go six rounds and the little fellows are expected to furnish plenty of excitement.

Kid Kileen, who went four rounds with Frankie Lealey, in one of the best bouts of the previous shows held here, is taking on Shorty O'Ryan, in the preliminaries of Tuesday night's events. Kileen, who is a local boy, is quick and aggressive and his ability with the gloves has won him much local esteem.

The Tuesday night show will be featured by a bout between two colored lads, Fighting Jim of Memphis, Tenn., and Texas Kid of Cincinnati, being hooked up in the semi-finals to go six rounds.

## SPEAKING TOUR

Columbus.—A general speaking tour of countries overseas will be made by Mrs. Florence D. Richards, President of the Ohio Woman's Christian Temperance Union.

Sailing for Europe about March 30, she intends going to London. It is, also, part of her plan to take a hand in the dry campaign of Scotland preceding the prohibition vote to be taken there next fall.

## Let There be No Discords

If your Ford car is out of tune, there is undoubtedly a very good reason for it. And the best way to find that reason, and have it remedied, is to jump in and drive to our authorized Service station, where one of our mechanics who is thoroughly acquainted with the Ford mechanism and who knows the Ford way to adjust or repair your car, can tune it up in a garage that is properly equipped to give real Ford service. Then, too we never use imitation parts—only the Genuine Ford-made, strong and durable. They wear from thirty to seventy-five per cent longer than the counterfeit parts that are softer and more cheaply made. In fact it is dangerous to human life to use imitation parts, and it is not fair to your Ford car or your pocket book.

We are a part of the gigantic Ford Service organization whose purpose it is to serve the owners of all Ford cars and trucks; we have more than a passing interest in your car. Prompt service is given on all work—from a minor adjustment to a motor overhaul. Drive in and see the facts for yourself—there's too much money invested in your Ford car to miss connections with the authorized Ford dealers.

WHAT we're aiming at, is that it takes both skill and precision to blend tobaccos the Chesterfield way.

Blending, by Chesterfield's method, brings out a new richness of flavor and mellowness of taste that other and less skillful blending methods fail to "discover."

Chesterfields sure do "satisfy"—and not in flavor alone, but in value, in quality, also in their extra wrapping\* of moisture-proof, glassine paper that keeps the cigarettes in every package firm and fresh.

Today, ask your dealer for these "satisfy-smokes."

Ivan Olson.

Veteran infielder who's booked to play second instead of short for the Dodgers this coming season.

Comes the dope from the Dodgers' camp that Ivan Olson, veteran infielder, will be seen cavorting at second instead of at his usual berth around second base in the 1920 campaign instead of at his usual berth around short. The reason given is that Ole's legs are giving out a bit and his arm lacks the strength of old. However true this may be, Ole looked last season as though he can put up a high class article of ball at second, at least, for several seasons to come.

The fiery Swede has had an interesting career. He was born October 14, 1885, in Kansas City and a few days later was throwing a rattle with such unerring accuracy from any position that the whole family agreed he was booked to play an infield position in the big league as soon as he got big enough to fill a uniform. He started his diamond career with Muskogee in the Three-I league in 1906, but went to Webb City in the Western Association before the season was over. He played third and then short. He struck at the shortstop job with Hutchinson in 1908 and Portland in 1909-10.

His work in 206 games in 1909 and 210 in 1910 caused the Cleveland club, which then had a working agreement with Portland, to claim him. He was the Cleveland club's regular shortstop in 1911, playing 140 games. Had not Ray Chapman bobbed up Ole might still be a member of the Indian infield. Ray came in 1912 and while Owner Somers was trying out combinations at short and second Ole played third base. In 1913-14 Olson played, at various times, every infield position for the club. In 1915 the club asked for waivers on him and Cincinnati paid the waiver price for him and turned him over to Brooklyn. He was judged about the infield and even served in the outfield during the 1915-16 campaigns, but the last three years, has been the Dodgers' regular shortstop. Last year he ranked fourth in fielding but, to some critics

## BEGIN TO PURIFY YOUR WINTER BLOOD

Grandmother's Old-Fashioned Sulphur and Molasses Did it.

But Not So Well As This Sulphur Tablet—Sugar Coated.

Through the winter the blood accumulates poisons because you do not perspire enough, because you do not live in the open air, and because you eat more meat, mush and other rich foods. Every spring we feel sluggish, constipated, liver and kidney ills beset us, colds and chronic coughs, pimples, boils and carbuncles, all evidence of impure, thick, sluggish blood.

Sulphur Tablets (not sulphur tablets) are composed of extracts of roots and herbs, combined with sulphur and cream of tartar—and no better physic, blood tonic and blood cleanser has ever been developed. Every spring thousands who already know their value take them to purify the system of Winter Poisons. Now is the time to begin, so you won't be attacked by serious ailments when Spring and Summer come. Sold by all druggists 50c per sealed tube with full directions.

seemed to cover less ground than usual. He never has been a hard hitter, but, oddly enough, last year was his best year with the war club. He piled up a .278 average in 140 games.

## BEAVERCREEK WINS GREENE COUNTY B. B. CHAMPIONSHIP CUP

Beavercreek won the silver loving cup in the sixth annual Greene county high school basketball tournament held at Antioch College by winning over Xenia in the final game at Kelly Hall Saturday night.

This was the first time that the present champions have held the cup and title. Immediately following the game the champions were presented with the large three year cup and a smaller permanent trophy. Xenia High was given the second prize, a cash purse. The girls cup was presented to Yellow Springs High while the cash prize for second place went to Cedarville.

No team could dispute the right to Beavercreek to the championship as they defeated the acknowledged three strongest teams, eliminating in turn Osborn, Yellow Springs and Xenia.

**Semi-Finals.**  
Xenia High won their way into the finals by winning from Bellbrook 28 to 23 in the semi-final round. The game was not as close as the score would indicate for though coming out with a lead of only five points the local team could have made it more if they had desired. Bellbrook came back strong in the second half and sprang a big surprise when they caught up with and passed the local team but they could not hold this advantage and lost out.

## BICYCLE RIDERS EAT LITTLE IN SIX-DAY GRIND

Maurice Brocoe snatches bite between sprints.

A real meal is about the first thing the riders in the annual six-day bicycle race in New York think of after the big grind ends. While the endurance contest is on the men must eat sparingly, their food consisting of small portions of only the most nourishing things. These bites are taken between their turns on the track. Maurice Brocoe, one of the contestants, is shown above.

## BOXING COMMISSION ESTABLISHED IN CITY

In view of the advent of the boxing game in this city, City Manager Kenyon Riddle has appointed a city boxing commission to handle and regulate all boxing shows in the future.

The commission conforms with the state law and is composed of Dr. H. C. Messenger, examining physician, Attorney J. Kenneth Williamson, Findlay M. Torrence, James Leahy and William Foley.

The purpose of the commission will be to regulate all boxing, see that the participants are in proper physical

condition and are matched so that one will not have an unfair advantage over the other. The commission is also empowered to stop all fights in which one of the participants is physically unfit to continue the fight or in which one is taking unfair advantage over the other.

The new commission will function for the first time Tuesday night, when a show will be put on here under the management of the Xenia Athletic club. The commission will occupy ringside seats, the compliments of the match makers putting on the show.

## CLASS GAMES ARE PLAYED MONDAY

Central High School basketball class games will be played at the rink Monday afternoon with two games scheduled.

The Seniors will take on the Sophomores while the Juniors will mix it with the Freshmen, in the annual interclass frays. Interclass rivalry and spirit always makes these games interesting and it is expected that interest will be rife for the court contests.

## DAVIS MEETS BROWN IN HEADLINER AT OPERA HOUSE TUESDAY

Tickets were placed on sale Saturday for the boxing program of the Xenia Athletic Club to be held at the opera house Tuesday night.

Battling Davis who made a local hit at the last boxing show in his bout with "Hip" Howell of Dayton, will again headline the attractions. Davis won a newspaper decision over Howell in the previous battle. This time the Fort Wayne battler will hook up with Chuck Brown of Toledo, who is hoping to stop the Hoosier. They will fight eight rounds at 145 pounds.

Rivalling the main mill in interest is the go between Eddie McManus of Dayton, well-known by local fans and Whitey Clark of Springfield. The Home City product issued a challenge to anyone in his class at the Labor Day bouts but had no takers and local fans welcome an opportunity to see him in action. The bout will go six rounds and the little fellows are expected to furnish plenty of excitement.

Kid Kileen, who went four rounds with Frankie Leahy, in one of the best bouts of the previous shows held here, is taking on Shorty O'Ryan, in the preliminaries of Tuesday night's events. Kileen, who is a local boy, is quick and aggressive and his ability with the gloves has won him much local esteem.

The Tuesday night show will be featured by a bout between two colored lads, Fighting Jim of Memphis, Tenn., and Texas Kid of Cincinnati, being hooked up in the semi-finals to go six rounds.

## Let There be No Discords

If your Ford car is out of tune, there is undoubtedly a very good reason for it. And the best way to find that reason, and have it remedied, is to jump in and drive to our authorized Service station, where one of our mechanics who is thoroughly acquainted with the Ford mechanism and who knows the Ford way to adjust or repair your car, can tune it up in a garage that is properly equipped to give real Ford service. Then, too we never use imitation parts—only the Genuine Ford-made, strong and durable. They wear from thirty to seventy-five per cent longer than the counterfeit parts that are softer and more cheaply made. In fact it is dangerous to human life to use imitation parts, and it is not fair to your Ford car or your pocket book.

We are a part of the gigantic Ford Service organization whose purpose it is to serve the owners of all Ford cars and trucks; we have more than a passing interest in your car. Prompt service is given on all work—from a minor adjustment to a motor overhaul. Drive in and see the facts for yourself—there's too much money invested in your Ford car to miss connections with the authorized Ford dealers.

"An all-around good shot—

WHAT we're aiming at, is that it takes both skill and precision to blend tobaccos the Chesterfield way.

Blending, by Chesterfield's method, brings out a new richness of flavor and mellowness of taste that other and less skillful blending methods fail to "discover."

Chesterfields sure do "satisfy"—and not in flavor alone, but in value, in quality, also in their extra wrapping\* of moisture-proof, glassine paper that keeps the cigarettes in every package firm and fresh.

Today, ask your dealer for these "satisfy-smokes."

Do You Have a Tonic?

I have noticed from many of the letters I have received recently, that about a third of my correspondents are in need of a tonic. A great many people suffered from the last epidemic of influenza, and most who suffered from the first epidemic had not yet recovered. The "flu" is followed by a toxic condition which may take years to overcome.

Unless you are in robust health, you will probably benefit by taking a simple tonic. It is important of course, to know which sort of system requires. If you are thin, take some of the cod liver oil emulsions, or some of the dozen excellent emulsions on the market, which are made of highly concentrated fats. If these are unpleasant, there are various combinations of olive oil and wine which taste good and at the same time are nourishing. Or if you do not like these ready prepared tonics, take either olive oil or cod liver oil in a small glassful of grape juice.

If you do not need a fattening tonic, some of the old fashioned spring tonics will be useful. There are various preparations on the market, but none of them are any better than dandelion tea, which thins the blood and clears the system; or sulphur and molasses, which has the same effect. If your appetite has suffered and your digestion is weak, you probably need hypophosphate.

And if you have any doubt as to which sort of tonic you need, consult your family physician.

Questions and Answers. Worried.—The only permanent way to remove superfluous hair from the face is to have electric needle treatments, although you may remove hairs temporarily by pulling them out with

tweezers. The fuzz which grows all over the skin cannot be removed. If it annoys you, bleach it with peroxides of hydrogen.

SHE DESPAIRED OF GETTING WELL

Was Almost a Nervous and Physical Wreck; Gains 10 Pounds and Feels Fine, Now.

"I am just so happy over what Tanlac has done for me that I want to tell everybody I meet about it," was the enthusiastic statement made recently by Mrs. S. T. Diggs, of 810 North Twenty-second St., Richmond, Va.

"I had suffered for six years before I began taking Tanlac," continued Mrs. Diggs, "and was almost a complete nervous and physical wreck. I had headaches constantly and I was so nervous that the noise of the street car would nearly run me distracted. I had little appetite and my digestion was so bad that what I ate nauseated me. My tongue was coated and I had a bad taste in my mouth. I had awful smothering spells and would get so dizzy I would almost fall. I had rheumatism so bad in my left shoulder that I could not raise my arm and I could get but little rest at night. Many a time when morning came I felt completely worn out. I fell off in weight till I was too weak to do my housework. I was operated on but when I came home I was as bad off as ever and grew worse and worse till I gave up in despair."

"One-day my husband brought me a bottle of Tanlac and I was astonished when I began to feel better after the first few doses. I continued to take it without missing a dose. Today I am on my fourth bottle and all my troubles have been completely overcome and I never have an ache or pain of any kind. I am in the very best of health, have gained ten pounds and am feeling better and stronger than I have in years. I eat everything I want, sleep fine at night and am doing all my housework. The headaches and dizzy spells are gone and all traces of rheumatism have left me. My nerves are so steady I can stand any kind of noise. Tanlac is rightly called the 'Master Medicine,' for it has mastered all my troubles and I consider it worth its weight in gold."

"Tanlac is sold in Xenia by Sayre and Hemphill."

HENS START LAYING.

Akron.—Evidence that spring is near has been reported by Charles McFeeley, a local printer. He says that his hens have started laying.

Better still, he reports, that one pullet has laid three eggs, each egg measuring nine inches around its longest circumference and seven inches around the middle. He says that they are single yoke eggs and that one of them made an omelet sufficient for three persons.

MANY CASES OF RHEUMATISM NOW

Says We Must Keep Feet Dry Avoid Exposure and Eat Less Meat.

Stay off the damp ground, avoid exposure, keep feet dry eat less meat, drink lots of water and above all take a spoonful of salts occasionally to keep down uric acid.

Rheumatism is caused by poisonous toxin, called uric acid, which is generated in the bowels and absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out in the urine. The pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate this uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action thus ridding the blood of these impurities.

Jad Salt is inexpensive, harmless and is made from the acid of grapes and lemon juice combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism. Here you have a pleasant, effervescent lithia-water drink which overcomes uric acid and is beneficial to your kidneys as well.

STABBING PAINS OF GOUT, LUMBAGO AND RHEUMATISM

Only those who have suffered with dread rheumatism, gout, lumbago and sciatica realize the torture of these diseases or the stubbornness with which they resist treatment. When these conditions are neglected they sometimes become incurable.

If you have ever suffered from the sharp twinges and inflammation which indicate a rheumatic condition, you had better begin now and get those acid poisons out of your blood. Rheumatic and gouty troubles are now known to be caused by an acid poison in the blood which can only be eliminated by an internal treatment. Rubbing and hot applications only temporarily stop the pain.

Prescription C-2223 is a preparation that will eliminate those poisons which will eventually cause you excruciating pain. It will prevent your being deformed or crippled in later years, which may happen if you don't do something right away.

The manufacturers are so certain that Prescription C-2223 will relieve you that they authorize all druggists to return the \$3.00 which are paid for two \$1.50 bottles to those who are not satisfied with the benefit received.

To secure the best results from the use of Prescription C-2223, 2223 Liver Pills are recommended. They stimulate the liver and regulate the bowels.

Will not nauseate or gripe. If your druggist cannot supply you with Prescription C-2223, one \$1.50 bottle and a box of pills will be sent you postpaid on receipt of \$1.75. Write Dept. 125 2223 Laboratory, Memphis, Tenn. for 1920 Alamanac, literature and sample of pills.

## A GROCER TELLS WHAT OVERCAME EFFECTS OF FLU

Nerv-Worth Quickly Brought J. O. Wilkinson Back to Strength and Health

Mr. Wilkinson, a well known grocer of Richmond, Ind., made the following statement:

"I was in bed 16 days with influenza and it left me in very bad shape. I was weak and nervous. Could not sleep more than an hour or two at a time. Had very little appetite and was hardly able to get around the house."

"I read the statements in the paper and Nerv-Worth seemed to be helping so many to get well that I thought I would give it a trial. Used two bottles of Nerv-Worth and am AS WELL AS EVER NOW. Good appetite, sleep fine and get up in the morning rested."

J. O. WILKINSON. Your dollar back at Sayre & Humphill's, Xenia, if this famous tonic does not benefit you. C. M. Ridgeway sells Nerv-Worth in Cedarville; W. F. Harper at Jamestown.

## KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 10c and 25c.

EVERYONE can have abundance of Thick, Beautiful, Glossy Hair.

## ELEVEN PRISONERS ESCAPE LATE SUNDAY FROM WORKHOUSE

Eleven prisoners escaped from the Dayton work house Sunday night by sawing their way through the bars. James Henderson, aged 23, of Dayton, one of the group, was shot and killed at his home an hour afterward. His wife who is held on a charge of homicide, says that her husband jumped through the window and attacked her for causing him to be sent to the work house for non-support.

The men who escaped are: L. H. Randolph, colored, Gallipolis; George Thomas, colored, Dayton; John McCarty, Cincinnati; Frank McCormick, Dayton; Jesse Johnson, colored, Marion; Frank Mason, colored, Dayton; William Wilson, Dayton; Clyde Gallion, Stockdale, Cal.; James Henderson, Dayton; Harrison Westbrook, Springfield; John Smith, Dayton.

## LOCAL DAIRY HAS NEW APPARATUS

J. A. Laveck, of the Laveck Dairy, has installed a pasteurizer, the first to be used by a local milk concern, which will be in operation in his dairy by April 1st.

The purchase of the pasteurizer is part of an enlargement program planned by Mr. Laveck, who will increase the capacity of his dairy at 25 Hivling street, by enlarging it and installing new machinery. The pasteurizer forestalls all bacteria, as germs cannot live under the heat thus applied to the milk. The product is heated to 142 degrees, killing the bacteria, and is then cooled to about 40 or 45 degrees.

## SAVES COAT FROM FLAMES SATURDAY

A coat and a pair of trousers were about all that Nelson Higgins, saved when his home on Taylor street burned at 4:30 Saturday afternoon. The fire, caught from a defective flue inside the house, and the entire front room was burned out. Fire, smoke and water loss, practically, makes the damage to the dwelling complete, as none of the contents were removed.

### MUST TAKE CONSEQUENCE

Akron—"After a man is willing to take a chance on the stuff he gets to drink these days, he must be ready to suffer the consequences if he falls into trouble while under the influence of what he drinks."

This is the ruling announced by Common Pleas Judge Fritch as he handed a 60-day workhouse sentence to Alex Weiman, Ravenna, for assault and battery.

## MIXED MOVEMENTS MANY, MARKET OPENS

New York, March 13.—There were many mixed movements at the opening of the stock market today, although the general price trend was to higher levels.

The motor shares were the most prominent issues. Chandler motors yielding 1-2 to 1-4 and then advancing to 1-5 1-2. General motor after yielding 4 points to 318 had a quick recovery to 324. Studebaker yielded to 95 1-4, a loss of 5-8, but soon recovered this loss.

## Household Hint

**MENU HINT**  
**Breakfast.**  
Oranges. Cereal.  
Rolls. Coffee.  
**Luncheon**  
Hot Cakes. Syrup.  
Cookies. Tea.

**Dinner.**  
Potato Soup.  
Veal Cutlet. Mashed Potatoes.  
Creamed Cabbage.  
Lettuce with French Dressing.  
Snow Pudding. Coffee.

### FOR THE CONVALESCENT

**Peef Tea**—Cut one pound of juicy beef (not necessarily the highest priced cuts of beef) into one-inch pieces. Wash thoroughly and cut in a quart mason jar. Do not put any water in the jar. Screw the cover on loosely. Set in a pan of cold water, putting something beneath the jar to raise it from the bottom. Let the water come to the boiling point, then lower the gas and keep it at that heat for about two or three hours or until the meat turns a whitish color.

When you use the beef tea you can dilute it to the desired strength and boiling water and season to taste.  
**Soft Boiled Eggs**—The best way to cook soft boiled eggs for an invalid is to put the egg in a pan, cover it with boiling water and let it stand from six to ten minutes where the water will keep hot but not boil. The white will be soft and jelly-like and the yolk soft but not liquid.

**Irish Moss Blanc Mange**—Get the Irish moss at the drugist's. Soak one-quarter cup of moss in cold water til soft, pick over and wash, then tie in a piece of thin sterilized cotton, and put in the double boiler with a pint of milk; boil till it thick-

ens when dropped on a cold saucer. Add one-half saltspoon salt, strain and add flavoring.  
A little crushed pineapple or chopped nuts may be added. Turn into a mold and let cool. Serve with cream

### FOR THE TABLE

**Baked Macaroni With Oysters**—The following dish is a very tasty luncheon dish: Boil a small package of macaroni until tender; drain and blanch with cold water; drain again. Butter a baking dish. Put in a layer of macaroni and season to taste; then a layer of oysters from which the liquid has been drained. Continue this way until all the material has been used up, having the last layer of macaroni.

Put one and one-half cups of milk in a sauce pan, add the oyster liquid, thicken with one heaping tablespoon of flour; season to taste; add a little butter, cook until thick, then pour this over the oysters and macaroni. Sprinkle with crumbs, dot with little pieces of butter or oleomargarine and bake until a golden brown.

**Waterlily Salad**—This charming dish is as delicious as it is pretty. Arrange crisp lettuce leaves on a flat glass dish to look like floating lily pads. Cut the whites of hard-boiled eggs carefully into lengthwise pieces and arrange on the lettuce to represent lily petals, place in center of each a whole pear, drop a little yellow of the eggs on top and serve dressing at table so as not to spoil the effect.

**Orange Cake**—Whites of five eggs, beat until stiff, add one-half cup sugar, then the yolks well beaten, ripd and juice of one orange, one-half cup water, one-half teaspoon soda, two cups flour, one teaspoon cream of tartar.

## THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

### A MODERN STORY OF HOME AND BUSINESS

#### A DECISION

Chapter 77  
I let Robert sleep as long as I dared, then wakened him. "Get up, lazy bones, or you will not be ready for breakfast," I called. My anger had all evaporated, only anxiety held place in my mind. I would ignore last night until he was his own dear self once more; then I would talk with him about things—how I felt toward pool rooms and drinking.

"All right." By his tone I knew he had been awake, that I had been mistaken when I supposed him asleep. As always when he drank, he ate nothing, but drank his coffee.

"How was Marion?" I asked. "Just the same as always."

"What did she want, or can't I know?" I asked, trying to make a joke of my question, but longing for an answer.

"She wanted to see me." "Oh!" I could not help the exclamation. I had thought he would give some reason for her message even though he did not explain fully.

"Yes, oh! Some people yet have faith in me."

"Why, Robert, I have faith in you. I always have and I love you!" He could not know how he was hurting me.

"A pile you do! You are sorry for me, sorry I am incompetent, and so you put up with me just as you would with an incompetent child."

But you don't believe in me any more, and you know it!"

I tried to convince him he was mistaken, but he read my state of mind so clearly that I could not talk convincingly.

"So you think Marion has more faith in you than I have?" I finally remarked.

"I don't think, I know! Marion never has lost her faith in me, in my business ability, even though Burch is my limit. You see she doesn't know me as well as you do, and thinks everyone but me to blame."

"Me included, I suppose."

"I never discuss you with anyone," he replied with a touch of dignity.

"Thank you for that, Robert. I don't think I could bear to know you talked of me with another woman."

After he left and as I dressed for the shop I kept wondering about his intimacy with Marion Hovey. Did she play the sweetly sympathetic companion to the misunderstood husband? She seemed hardly clever enough for that.

"Little plain household drudge!" I said aloud, "flatters a man through his stomach."

But in spite of my scorn, I was more anxious, more troubled, than ever I had been before. Did Robert take his worries to her? Had he told her of the reason he would not eat in the boarding house? Did she know that he did not earn enough

to pay for my food as well as his own, so insisted upon eating where and what he pleased without consulting me? It was unbearable that she should know all these things so intimately our own.

Suddenly I came to a decision. I would go and see Marion Hovey at the first opportunity. I would get her to talk to Robert. I would find out how much she knew, what she was to him. It might be sometime before I could find an evening when Robert would be out—and not with her. But I would make an opportunity, if I took my lunch hour, Yes, that was what I would do! I would beg her to give me luncheon, tell her Robert had bragged of her food, et cetera.

I felt better after I decided to see Marion, and kept my mind on my work through the day. I was to meet Robert at a restaurant not far from the shop, and I asked Mary Ryan to join us at dinner.

"Robert isn't quite himself these days, Mary. You will do him good."

"Now what has he been up to?" "Pool rooms for one thing."

"The dickens he has! Gerry, you mustn't let him get the habit. Does he play for money?"

"Yes, and wins, so he says?" "Worse and more of it! If he would lose his boots it would be the best thing could happen. If he wins, he's lost."

Mary had a philosophy for everything in life.

## You Can't Rub It Away; Rheumatism is in the Blood

### Liniments Will Never Cure.

If you are afflicted with Rheumatism, why waste time with liniments, lotions and other local applications that never did cure Rheumatism, and never will?

Do not try to rub the pain away. Try the sensible plan of finding the cause of the pain, and go after that. Remove the cause, and you remove the pain.

You will never be rid of Rheu-

matism until you cleanse your blood of the germs that cause the disease. S. S. S. has never had an equal as a blood purifier and scores of sufferers say that it has cleansed their blood of Rheumatism, and removed all trace of the disease from their system.

Get a bottle of S. S. S., and get on the right treatment to-day. Special medical advice free. Address: Medical Director, 111 Swift Laboratory, Atlanta, Ga.

## COMES FAR TO FIND HEIRESS

Ben Mahomet.

Ben Mahomet, an Arabian shiek and brother of the Amir of Hedjez, has been rewarded after a long search for seventeen-year-old Sari, one of the richest of Turkish heiresses. She disappeared more than a year ago. Finally a clew led him to America and he found her a few days ago in New York's East Side.

## MOTORRAIDS

One of the causes of an engine missing explosions, which are sometimes very mysterious, is water in the carburetor. If you have tried to find in all other ways a reason for a skipping engine, and have failed, try draining the carburetor. If some of the liquid drained is caught in the hand, the water, if there is any, will be repelled by the gasoline and will form into globules, thus being easily distinguished.

Cord tires are very much favorites among discriminating car owners. The greatest enemy of the pneumatic tire for many years has been the internal friction, which generates heat and causes the rubber to deteriorate. It has been the constant aim of tire manufacturers, ever since the pneumatic tire was developed, to eliminate as much of the friction as possible. The cord tire is the latest victory over the friction. Cord tires last much longer than the old time pneumatic tire and gives much more comfort when on a car.

# ELEVEN PRISONERS ESCAPE LATE SUNDAY FROM WORKHOUSE

Eleven prisoners escaped from the Dayton work house Sunday night by sawing their way through the bars. James Henderson, aged 23, of Dayton, one of the group, was shot and killed at his home an hour afterward. His wife who is held on a charge of homicide, says that her husband jumped through the window and attacked her for causing him to be sent to the work house for non-support.

The men who escaped are: L. H. Randolph, colored, Gallipolis; George Thomas, colored, Dayton; John McCarty, Cincinnati; Frank McCormick, Dayton; Jesse Johnson, colored, Marion; Frank Mason, colored, Dayton; William Wilson, Dayton; Clyde Gallion, Stockdale, Cal.; James Henderson, Dayton; Harrison Westbrook, Springfield; John Smith, Dayton.

# LOCAL DAIRY HAS NEW APPARATUS

J. A. Laveck, of the Laveck Dairy, has installed a pasteurizer, the first to be used by a local milk concern, which will be in operation in his dairy by April 1st.

The purchase of the pasteurizer is part of an enlargement program planned by Mr. Laveck, who will increase the capacity of his dairy at 25 Hiving street, by enlarging it and installing new machinery. The pasteurizer forestalls all bacteria, as germs cannot live under the heat thus applied to the milk. The product is heated to 142 degrees, killing the bacteria, and is then cooled to about 40 or 45 degrees.

# SAVES COAT FROM FLAMES SATURDAY

A coat and a pair of trousers were about all that Nelson Higgins, saved when his home on Taylor street burned at 4:30 Saturday afternoon.

The fire, caught from a defective flue inside the house, and the entire front room was burned out. Fire, smoke and water loss, practically makes the damage to the dwelling complete, as none of the contents were removed.

# MUST TAKE CONSEQUENCE

Akron—"After a man is willing to take a chance on the stuff he gets to drink these days, he must be ready to suffer the consequences if he falls into trouble while under the influence of what he drinks."

This is the ruling announced by Common Pleas Judge Fritch as he handed a 60-day workhouse sentence to Alex Weiman, Ravenna, for assault and battery.

# MIXED MOVEMENTS MANY, MARKET OPENS

New York, March 13.—There were many mixed movements at the opening of the stock market today, although the general price trend was to higher levels.

The motor shares were the most prominent issues. Chandir motors yielding 1-2 to 1-4, and then advancing to 1-1 1-2. General motor after yielding 4 points to 3-18 had a quick recovery to 3-24. Studebaker yielded to 9-14, a loss of 5-8, but soon recovered this loss.

# Household Hint

**MENU HINT**  
Breakfast. Cereal. Oranges. Rolls. Coffee.  
Luncheon. Hot Cakes. Syrup. Cookies. Tea.  
Dinner. Potato Soup. Mashed Potatoes. Creamed Cabbage. Lettuce with French Dressing. Snow Pudding. Coffee.

**FOR THE TABLE**  
Baked Macaroni With Oysters—The following dish is a very tasty luncheon dish: Boil a small package of macaroni until tender; drain, and blanch with cold water; drain again. Butter a baking dish. Put in a layer of macaroni and season to taste; then a layer of oysters from which the liquid has been drained. Continue this way until all the material has been used up, having the last layer of macaroni.

**FOR THE CONVALESCENT**  
Peef Tea—Cut one pound of juicy beef (not necessarily the highest priced cuts of beef) into one-inch pieces. Wash thoroughly and cut in a quart mason jar. Do not put any water in the jar. Screw the cover on loosely. Set in a pan of cold water, putting something beneath the jar to raise it from the bottom. Let the water come to the boiling point, then lower the gas and keep it at that heat for about two or three hours or until the meat turns a whitish color.

When you use the beef tea you can dilute it to the desired strength and boiling water and season to taste.

**Soft Boiled Eggs**—The best way to cook soft boiled eggs for an invalid is to put the egg in a pan, cover it with boiling water and let it stand from six to ten minutes where the water will keep hot but not boil. The white will be soft and jelly-like and the yolk soft but not liquid.

**Irish Moss Blanc Mange**—Cut the Irish moss at the druggist's. Soak one-quarter cup of moss in cold water till soft, pick over and wash, then tie in a piece of thin sterilized cotton, and put in the double boiler with a pint of milk; boil till it thickens when dropped on a cold saucer. Add one-half saltspoon salt, strain and add flavoring.

A little crushed pineapple or chopped nuts may be added. Turn into a mold and let cool. Serve with cream.

**Waterlily Salad**—This charming dish is as delicious as it is pretty. Arrange crisp lettuce leaves on a flat glass dish to look like floating lily pads. Cut the whites of hard-boiled eggs carefully into lengthwise pieces and arrange on the lettuce to represent lily petals, place in center of each a large half juicy canned pear or a whole pear, drop a little yellow of the eggs on top and serve dressing at table so as not to spoil the effect.

**Orange Cake**—Whites of five eggs, beat until stiff, add one-half cup sugar, then the yolks well beaten, ripd and juice of one orange, one-half cup water, one-half teaspoon soda, two cups flour, one teaspoon cream of tartar.

# THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS  
A MODERN STORY OF HOME AND BUSINESS

# A DECISION

Chapter 77  
I let Robert sleep as long as I dared, then wakened him.  
"Go up, lazy bones, or you will not be ready for breakfast," I called. My anger had all evaporated, only anxiety held place in my mind. I would ignore last night until he was his own dear self once more; then I would talk with him about things—how I felt toward pool rooms and drinking.  
"All right." By his tone I knew he had been awake, that I had been mistaken when I supposed him asleep. As always when he drank, he ate nothing, but drank his coffee.  
"How was Marion?" I asked.  
"Just the same as always."  
"What did she want, or can't I know?" I asked, trying to make a joke of my question, but longing for an answer.  
"She wanted to see me."  
"Oh!" I could not help the exclamation. I had feared he would give some reason for her message even though he did not explain fully.  
"Yes, oh! Some people yet have faith in me."  
"Why, Robert, I have faith in you. I always have and I love you!" He could not know how he was hurting me.  
"A pile you do! You are sorry for me, sorry I am incompetent, and so you put up with me just as you would with an incompetent child."

But you don't believe in me any more, and you know it!"  
I tried to convince him he was mistaken, but he read my state of mind so clearly that I could not talk convincingly.  
"So you think Marion has more faith in you than I have?" I finally remarked.  
"I don't think, I know! Marion never has lost her faith in me, in my business ability, even though Burch is my limit. You see she doesn't know me as well as you do, and thinks everyone but me to blame."  
"Me included, I suppose."  
"I never discuss you with anyone," he replied with a touch of dignity.  
"Thank you for that, Robert. I don't think I could bear to know you talked of me with another woman."  
After he left and as I dressed for the shop I kept wondering about his intimacy with Marion Hovey. Did she play the sweetly sympathetic companion to the misunderstood husband? She seemed hardly clever enough for that.  
"Little plain household drudge!" I said aloud, "flatters a man through his stomach."  
But in spite of my scorn, I was more anxious, more troubled, than ever I had been before. Did Robert take his worries to her? Had he told her of the reason he would not eat in the boarding house? Did she know that he did not earn enough
